Agenda

1. Poster for Staff Meeting on Friday - Teacher Observations

- We noted the teacher moves on our poster for what we observed each other doing during the Word Detective Letterland lesson.
 - Increased student engagement when students had individual copies of texts.
 - Highlighting words as well as marking sounds provided deeper context for their learning.
 - Have students read words in isolation as well as within context to ensure application.
 - Use sentences as opportunity to practice fluency.
- * Note: Next time we will talk right after rounds and share/ask questions.

2. Joanna Cash met with us about ELLs

- Joanna gave us the resource "Can Do Descriptors By Domain, Proficiency Level, and Key Use of Language: Grade 1"
-

- She shared progress that she has seen with some students and asked for feedback on what else she could do to help the kids she serves.

2. iStation

- Kim and Jennifer shared that they were able to get all of their kids assessed on iStation in almost one day. They sent 6 kids from each class at a time to a track out room with Ashley and when one kid finished another one was sent. It took the kids an average of 30 to 40 minutes to complete the assessment.
